

The Technical Saw for Stone and Marble that was established in 1952 is a leading producer of quality marble and stone fireplaces, water fountains, statues, tiles, sinks, howers, vases, columns, buildings, and more. Quality, variety and cost competitiveness have always been our motto. We offer the finest handcrafted marble and tone items made by the most skilled craftsmen who take pride in their work, and the quality of our products is hard to beat. Every item we produce is a unique work of art, hand carved from genuine marble or stone. We are constantly coming up with new stone products.

Take a look at samples of our products and work. If you need any additional information please feel free to contact us.
